

PLAYING POKER

Minimums and maximums, and maximum payouts are posted at the table.

Mississippi Stud is a poker-based game that allows you to compete against a pay table instead of a Dealer. If you have a pair of jacks or higher, you win and any pairs of 6's through 10's are a push.

Make an Ante bet to receive your first two cards.

The Dealer will place three community cards face down in the middle of the layout.

You can fold and forfeit your wager or you can play by betting one to three times your Ante on the 3rd Street.

The Dealer will then reveal the first community card.

You can fold and forfeit all previous wagers or you can play by betting one to three times your Ante on the 4th Street bet.

The Dealer will then reveal the second community card.

You can fold and forfeit all previous wagers or you can play by betting one to three times your Ante on the 5th Street bet.

Now the Dealer turns over the final community card.

Your hand will push if your five card hand contains a pair of 6's through 10's.
