

PLAYING **ROLL TO WIN** CRAPS

Experience the excitement of shooting live dice and interacting with the Dealer while placing bets at your individual betting terminal.

The game begins with the Shooter's (Player throwing the dice) first roll, also known as the Come Out Roll. If the result of this roll is a 7 or 11, the Player wins. The Player loses if a 2, 3 or 12 (called Craps) is thrown. If a Player throws any number other than a 7, 11, or Craps, on the Come Out Roll, then a point (number) is established. Once a point is established, the Shooter wins if they roll that number again before throwing a 7. There are a variety of bets a Player can make during a series of rolls.

The handy Help Screen allows you to touch each betting area to explain the payout and what Players are betting on.
