PHOTOGRAPHY

WHO WE ARE

Pinpoint National Photography is North America's corporate photography solution. Based in Toronto, we have three photographers who live in the Niagara Falls area. We also have eight photographers in the Toronto Area. Pinpoint works exclusively with business clients to provide corporate event photography, business headshots and our popular **HeadShot Salon**.

Our professional photographers understand the nuances and flow of each type of corporate event. They work with your requests and take advantage of opportunities to create the images you need. Panoramas of the entire space, tables and guests, reception lines and speakers in formal settings. They respect the etiquette and attire of the event and work effectively with participants when taking candid or posed photographs. We look forward to working with you.

ENTERTAINMENT

WHO AM I

My performance is dynamic and my repertoire eclectic. There is absolutely something for everyone and every occasion. My repertoire includes classic rock, funk and contemporary favourites. I have performed for numerous high profile annual events.

The instrument I perform on is a Roland FP80 digital stage piano with outstanding sound quality that can be used indoors or out. I can easily accommodate cocktail hour and dinner receptions and I promise a performance that will always reflect positively upon you and your event.

My performance standards and musical selections will add tremendously to the ambiance of the day and definitely please you and your guests.

Sincerely,
Frank Krahn

SIGNAGE/DECALS

WHO WE ARE

Being in business since 1981, AutoTrim & Signs has been serving the Niagara Region since 1989. Our reputation in the region is stronger than ever; we opened a sister company "Elements" which is a full design department for all custom designs, branding and stationary needs. Elements capabilities compliment AutoTrim's production and install.

We specialize in full production and installation of: vehicle/door/wall/window wraps • trade show displays • banners • custom graphics/signs • large and small routed 3D signage • clothing • magnetic name tags • magnets • braille • helmets/masks and more!

Everything gets designed in Elements then given to AutoTrim to produce and install. So the same team is looking after the same project to make everything goes as smoothly as possible for our customers.

emerson

WHO WE ARE

At the Emerson Group, we specialize in digital fabric printing, digital large format signage, installation and design services. We're innovative, experienced, highly responsive and we employ cutting edge digital printing technology.

Emerson's wealth of experience in production provides for the expert colour matching and profiling that is key to the successful printing of the highest quality images in rich, vibrant, and dynamic colour. Emerson's direct digital textile printers and our UV-curable printers can print your high resolution, full-colour photos and graphics on a variety of textiles, weather-proof and rigid media materials. Our services range from large format fabric printing up to 16' wide to short run printing for soft signage and decor.

Emerson offers distinct, effective creative solutions carefully crafted to meet your marketing objectives. We look at the "big picture" and integrate our creative and production expertise to provide you with a maximum return. We've had the opportunity to work with some very high profile clients here in North America and abroad. Our in-house sewing department can finish your project to your precise specifications (laser cutting, seams, hems, grommets, Velcro®, pockets, etc.) Custom-built, or off-the-shelf, we can also supply a framing system and a variety of lightboxes perfectly suited for any application.

During the past 30+ years, we've helped companies create memorable visual branding experiences.
