

NIAGARA CASINOS FIRST IN THE WORLD TO LAUNCH LIVE DEALER ELECTRONIC TABLE GAMES CONNECTED TO MULTIPLE PROPERTIES

(Niagara Falls, ON) November 21, 2019 – Niagara Casinos is leveraging technology to be the first casino in the world to implement live dealer electronic table games connected to multiple properties.

This new technology simulates traditional table games, however is unique in the execution. The live dealer is stationed at Fallsview Casino Resort and players at Casino Niagara are able to virtually connect to them in real time through an individual touchscreen betting terminal. Although other casinos have implemented live dealer electronic table games, Niagara Casinos is the first to successfully connect it to more than one property. Customers at Fallsview Casino and Casino Niagara can enjoy the same table game experience with the same dealer at the same time.

“We’re always looking for ways to add to the overall customer experience,” says Steve Weel, vice president of gaming operations at Niagara Casinos. “This is something new, exciting and interactive. Our associates enjoy operating this new version of a traditional table game and we’re receiving a lot of positive feedback from our customers.”

Customers can now play their favourite table games with the ease of a slot machine and the added excitement of a live dealer. Both Dynasty Baccarat and Dynasty Blackjack games are available and customers can play at their own pace and select between multiple table limit options to maximize their play. The vertical terminals also provide customers with more personal space, creating a more comfortable environment for some.

“Technology is changing, there is no question about that,” says Weel. “It’s important for us to continually adapt to changing environments, while also understanding the needs of our customers. I’m thrilled we’re the first casino to implement Dynasty Electronic Table Games connected to multiple properties. We’re creating a unique environment that allows customers to really enjoy their favourite table games.”
